Subject: supporting documentation
[tech-sci JB responses 103116 and NY list .docx](#)

Hi Cayleigh,

I have provided the additional supporting documentation you had requested.

I would suggest that you use the RTC as your primary support document since it has been reviewed by management and Mark.

I have tried to pull out additional technical information from the FSEIS and DMMP to answer your questions.

I will not be able to provide any additional information on this because I need to focus on other reviews for the FSEIS and RTC. I should be available to work on this tomorrow.

I did see that you have made a lot of progress on the CZMA letter so a lot of this information may no longer need this information.

Ex. 5 - Deliberative Process / Attorney Client

Thanks, Jeannie
